The stone in accordance with the above menti description has been identified as a natural am diamond

06 January 2016

The characteristics of the above mentioned diamond have been established by scientific measurements and observations, carried out in the laboratories of agi

Diamond Identification Marks

Red symbols refer to internal characteristics Green symbols refer to external characteristics

The characteristics have been indicated to clarify the description of the stone and / or for further identification

Comments

Where this certificate is issued on a diamond which is graded mounted, diamond weights and / or other characteristics may be based on information supplied.

This certificate is established in conformity with the "International Rules for Grading Polished Diamonds" approved by the World Federation of Diamond Bourses and the International Diamond Manufacturers Association at the May 1978 Congress (rev. ed. 1995), and may not be reproduced by any means whatsoever unless complete.
